Product Design & Development Process

01

Concept

BlueSky, Market Research, "I have an idea"...

02

Design

Sketches, CAD, 3-D Modeling & Prototypes, Field Test Requirements.

03

Development

Factory Audits (QMS, SR) & Vendor Qualification, Quality Criteria, Product, Material, Supply Chain verification, Prototype & Production Tooling Initiation, Packaging.

04

Engineering

Techpack initiation, DFM analysis, Product validation (EV, DV and PV), BOM management, SOP/MIR creation.

05

Manufacturing

Assembly, Product Quality management, Material Traceability & Documentation, Engineering, WIP Tracking, Corrective & Preventive Actions, Social Responsibility, Continuous Improvement

06

Quality Management

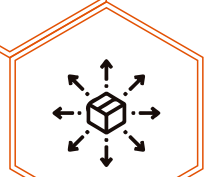

Quality Inspection: incoming inspection, in production inspection, finished goods inspections; Quality Assurance; Corrective Preventative Action.

07

Distribution

Free Trade Zone Consolidation, Drop Shipments, Supply Chain & Operations Management.

Specialities
